

Dear Mr Johnson

I gave out the pamphlets you sent me before our last meeting and we did not have many views on the issues other than general agreement with them. However it was felt that for Community Councils to make a worthwhile contribution to the process that you should arrange a meeting of all the Community Councils in Ayrshire to explain to us how to participate constructively. By our nature we tend to look at the small picture ie the effect on our own community and not at the big picture.

Your records for future correspondence is correct.

Yours sincerely

Louise Dickson

Secretary

Irvine Community Council.
